

## Quality and environmental policy

At Elgoline d.o.o., we are committed to fulfilling the requirements and expectations of:

- our customers
- other interested parties with whom we have agreements regarding mutual compliance with quality and **environmental commitments** and
- **legislation and regulations**

### QUALITY AND ENVIRONMENTAL POLICY – "CUSTOMERS" ASPECT:

- By providing quick delivery of prototypes and small series of rigid and flexible printed circuit boards, we aim to offer and supply our clients in various industries where printed circuit boards are used with quality products that, together with accompanying sales support, meet or exceed their requirements and expectations; this is our most important commitment
- **We consider customers' environmental requirements**
- We comply with applicable legislation and regulations regarding product and service quality and **the environment**
- We strive to strengthen and improve our position in selected markets (acquiring new customers, expanding the range of products for existing customers, etc.)
- We aim to be ranked among the top-tier suppliers for our customers (approach of "zero complaints," "zero delivery delays," etc.)

### QUALITY AND ENVIRONMENTAL POLICY – "OTHER INTERESTED PARTIES" ASPECT:

- We ensure compliance with commitments regarding product and service quality and **the environment**, which we have made through agreements with other interested parties (government, external suppliers, **neighbors, individuals**, etc.)
- Commitment to compliance with environmental legislation
- We inform external suppliers about their contribution to the overall quality of our products and services, as well as **their contribution to environmental management**

### QUALITY AND ENVIRONMENTAL POLICY – "QUALITY MANAGEMENT AND ENVIRONMENTAL MANAGEMENT SYSTEM" ASPECT:

- We are committed to fulfilling the agreed requirements for the quality management and environmental management system and to continuous improvements
- We strive for the organized operation of the company as a whole, as well as for the organized, successful, and efficient operation of individual processes established within the quality management system
- **In individual processes, we carry out activities in ways that result in minimal, but primarily controlled, impacts on the environment (water, air, soil)**
- **We are committed to environmental protection and pollution prevention**
- We maintain the quality management and **environmental management system**

### QUALITY AND ENVIRONMENTAL POLICY – "EMPLOYEES AND EXTERNAL COLLABORATORS" ASPECT:

- Employees and external collaborators acting on our behalf are committed to appropriate training and continuous improvement of knowledge and experience regarding product, service, and process quality, as well as **responsible environmental management**
- Employees and external collaborators acting on our behalf are aware of the importance of our actions and their contribution to the quality of products and services we offer on the market, as well as **the potential impacts of our activities on the environment**

### QUALITY AND ENVIRONMENTAL POLICY – "FINANCIAL RESOURCES" ASPECT:

- We ensure the company's good financial standing, thereby ensuring the ability to obtain resources that enable us to meet and exceed the requirements and expectations of our customers and other interested parties

I communicate the Quality and **Environmental Policy** to other employees involved in the quality and environmental management system through regular internal communication. The Quality and **Environmental Policy** is also available to other interested parties. In addition to myself, I also commit other internal and external collaborators involved in the implementation of the established quality and **environmental management system** to respect and implement the Quality and **Environmental Policy**.
